

Key Information Document ("KID")

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product
Capped Floored Floater Bond linked to 3-Month-Euribor

German Securities Code (WKN): XYN34R / ISIN: DE000XYN34R4

Manufacturer of the Product: XY Bank AG (Issuer) / www.xy-bank.com/contact / call [phone number] for more information

The Federal Financial Supervisory Authority (BaFin), Germany, is responsible for supervising [XY Bank AG] [the manufacturer] in relation to this Key Information Document

[Date of production of the KID: 10 December 2015] [Latest revision of the KID: 10 December 2015 [14:36]]

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type

This product is a bearer bond issued under German law.

Term

The product has a fixed lifetime and will be due on the Redemption Date.

Objectives

Objective of the product is to provide you with a specified entitlement according to predefined conditions. You will receive on the Redemption Date 100 % of the Nominal Value. Furthermore, you will receive a variable Interest Payment on each Interest Payment Date for the previous Interest Period. The Interest Rate for the calculation of each Interest Payment will be determined on the Interest Determination Date prior to the relevant Interest Period. The Interest Rate will not be less than the Minimum Interest Rate and will not exceed the Maximum Interest Rate. The Interest Payment on an Interest Payment Date equals the product of the Nominal Value and the Interest Rate per annum determined for the relevant Interest Period, calculated on a pro rata basis for each Interest Period.

The Issuer may call in the product with effect to an Interest Payment Date. In this case you will receive 100 % of the Nominal Value. The probability of such Issuer call rises, inter alia, if the level of market interest rates falls.

You must pay accrued interest (accumulated interest) pro rata when purchasing the product during its lifetime.

Interest Rate	3 month Euribor rate (in percent p.a.)	Interest Payment Dates	Each 10 March, 10 June, 10 September and 10 December each calendar year, commencing on 10 March 2016 and ending on the Redemption Date
Minimum Interest Rate	0.75 percent p.a.	Interest Determination Dates	Each second bank business day prior to the first day of the relevant Interest Period, commencing on 8 December 2015
Maximum Interest Rate	1.50 percent p.a.	Interest Period	The period commencing on the Issue Date (including) until the first Interest Payment Date (excluding) and, thereafter, each period commencing on an Interest Payment Date (including) until the next Interest Payment Date (excluding) or the Redemption Date (excluding)
Currency of the Product	Euro (EUR)	Redemption Date (maturity)	10 December 2020
Nominal Value	EUR 1,000	Call right of the Issuer	The Issuer has the right to call in the Product with effect to an Interest Payment Date in the years 2016 through 2019.
[Issue Price	100 percent of the Nominal Value]	Type of Settlement	Cash
Issue Date	10 December 2015		

The Issuer is entitled to terminate the product with immediate effect, if an extraordinary event occurs. Examples of extraordinary events include [changes in legislation.] [tax events] [and the discontinuation of the Issuer's ability to carry out the necessary hedging transactions]. In this case, the termination amount may possibly be significantly below the [purchase price] [Nominal Value]. You also bear the risk that the product will be called in at a time unfavourable to you, and you may only be able to reinvest the termination amount on less favourable terms.

Intended retail investor

The product is intended for private clients who pursue the objective of general asset formation / asset optimization and have a medium-term investment horizon. This product is a product for clients with advanced knowledge and / or experience with financial products. The investor cannot bear any losses on the capital invested and attaches importance to a capital protection.

2. What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

You are entitled to receive back at least 100 % of your capital in the Currency of the Product. Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash-in before maturity.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		10 December 2020 (maturity)	
Example Investment		EUR 10,000	
		If you redeem after 1 year	If you redeem at maturity
Scenarios			
Minimum	EUR [●]. The return is only guaranteed if the redemption occurs at maturity and the Issuer is able to fulfill its obligations under the product (see under "3. What happens if XY Bank is unable to pay out?").		
Stress	What you might get back after costs	EUR [●]	EUR [●]
	Average return each year	[●] %	[●] %
Unfavourable	What you might get back after costs	EUR [●]	EUR [●]
	Average return each year	[●] %	[●] %
Moderate	What you might get back after costs	EUR [●]	EUR [●]
	Average return each year	[●] %	[●] %
Favourable	What you might get back after costs	EUR [●]	EUR [●]
	Average return each year	[●] %	[●] %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The scenarios shown represent possible outcomes calculated based on simulations.

3. What happens if XY Bank is unable to pay out?

You are exposed to the risk that the Issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the Issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. Thereby the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product or convert it into shares of the Issuer and suspend rights of the investors. A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	If you redeem after 1 year	If you redeem on 10 December 2020 (maturity)
Total costs	EUR [●]	EUR [●]
Annual cost impact*	[●] %	[●] % per year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you redeem at the recommended holding period your average return per year is projected to be [●] % before costs and [●] % after costs.

Composition of costs

One-off costs upon entry or exit		If you redeem after 1 year
Entry costs	These costs are already included in the price you pay	[Up to] EUR [●]
Exit costs	These costs are already included in the amount you receive and are only incurred if you exit before maturity. If you hold the product until maturity, no exit costs will be incurred.	[Up to] EUR [●]

5. How long should I hold it and can I take money out early?

Recommended holding period: until 10 December 2020 (maturity)

The objective of the product is to provide you with the entitlement described under "1. What is this product?" above provided that the product is held until maturity.

There are no possibilities to take your money out early other than to sell the product through the exchange where the product is listed or off-exchange. If you should sell the product before the end of the recommended holding period, the amount you will receive could be – even significantly – lower than the amount you would have otherwise received. The capital protection only applies at the end of the term.

Exchange Listing	Stuttgart Stock Exchange (Freiverkehr); Frankfurt Stock Exchange (Freiverkehr)	Last Exchange Trading Day	4 December 2020
Smallest Tradable Unit	EUR 1,000	Price Quotation	Percentage quotation

In unusual market situations, or in the event of technical faults/disruptions, a purchase and/or sale of the product can be temporarily hindered, or may not be possible at all.

6. How can I complain?

Any complaint regarding the person advising on, or selling, the product can be submitted directly to that person via the relevant website.

Any complaint regarding the product or the conduct of the Issuer of this product can be submitted in text form (e.g. by letter or e-mail) to XY Bank under the following address: [postal address of XY Bank, Department, contact details of the complaints office within the organization of the Issuer, e-mail address, www.xy-bank.com/complaints].

7. Other relevant information

The prospectus, any supplements thereto and the final terms are published on the Issuer's website (www.xy-bank.com; the prospectus and the supplements under "Service / Prospectuses"; the final terms after entering the relevant ISIN or WKN and then under "Downloads"), all in accordance with legal requirements. In order to obtain more detailed information - and in particular details of the structure of and risks associated with an investment in the product - you should read these documents.
